

# Home Learning Year 4

w/c 2/11/20

## English

This week in English we will be looking at script writing.

**Task 1-** Look at the following BBC bitesize [video](#) on how to create a play script. Complete the quiz below.

**Task 2-** Now we have looked at creating a script, try to turn part of your favourite book, or you reading book into a script. Try to include different stage directions for how the characters should act, as well as some dialogue.

Remember to practise your spellings on EdShed and your reading skills on read theory. You should find your log-in in your reading record. If you don't have your log-in please contact your class teacher and they will be happy to help.

## Maths

**Task 1-** This week in maths we will be continuing our work on addition and subtraction. Today, use the following [website](#) to look at answering problem solving questions with addition and subtraction. Complete the lesson and activities.

**Task 2-** Today, we will be continuing with our problem solving using addition and subtraction. Use this oak national academy [website](#) to practise your skill with unknown numbers.

If you need any assistance This [website](#) can be used to work with online dienes blocks.

Also have a go at your times tables using either times table rock star or hit the button. Try learning and practising your 3,4 and 8 times tables this week. You should have your log-in for times tables rock star in your reading record. If you don't have your log-in please contact your class teacher and they will be happy to help.

## Theme work

This week in our theme work, we will be looking at creating a timeline of the Roman Empire.

Use these [cards](#) to help you create a chronological timeline for the Roman Empire.

If you are unsure on the difference between CE and BCE, use this [website](#) to assist you.
